

Allies Suspend Attack on Cassino Reds Cross Dniester into Prewar Rumanian Area

Nazi Regiment Wiped Out by Soviet Troops

Moscow Reports
23-Mile Advance

By TOM YARBROUGH

LONDON, Tuesday, March 28 (AP)—The Red army crossed the Dniester river into prewar Rumanian territory yesterday, wiping out a regiment of Hungarian troops, and rolled twenty-three miles southward to capture Sadagora, just across the upper Prut river from the capital, Bucharest, a Moscow bulletin announced today.

The Russians were within two and one-half miles of Chernowitz, a Moscow dispatch said, and the swift smash by Marshal Gregory K. Zhukov's First Ukrainian army effectively split the German defense line east of the Carpathian mountains base on the Bucharest-Chernowitz-Lwow railroad, and put the Russians within twenty-eight miles of Rumania's northern frontier.

New Trap Closing
Kamenets-Podolsk, forty miles to the northeast, also fell to a three-day Russian attack, and these two blows above and below the Dniester strengthened Soviet chances of trapping large enemy forces in the Kamenets-Podolsk area.

To the southeast in Bessarabia, where a crossing of the Prut river into Eastern Rumania appeared to be imminent, the Russian Second Ukrainian Army struck thirty-three miles southwest of Byelst, taken Sunday, to capture Skulany. The latter point on the east bank of the Prut is just eleven miles north of the Black Sea, west bank Rumanian rail junction where lines radiate southward to Odessa on the Danube, the Ploesti oil fields and Bucharest, Rumanian capital.

1,000 Nazis Killed
One hard-hitting Soviet tank unit broke into a Bessarabian village so quickly that 1,000 German and Rumanian troops, caught loading wagons for a further retreat, were wiped out, and the midnight communique reported by the Soviet monitor.

Far to the southeast the Third Ukrainian army of Gen. Rodion Y. Malinovsky fought its way deeper into the outskirts of the Black Sea port of Nikolayev killing hundreds of the enemy. The Germans were putting up stiff resistance there, Moscow said, despite the steady pushing of their ultimate escape routes into Rumania.

German Casualties "Terrific"
Russian troops attacking on the line of the pocket north and east of Kamenets-Podolsk were inflicting heavy casualties on the enemy, Moscow said. In the capture of one rail town, Yarmolinsk, the bulletins said the Soviet troops killed 5,000 Germans and destroyed 100 tanks. Premier-Marshall Stalin announced the capture of Kamenets-Podolsk last night in an order of the day. The German garrison was "completely wiped out," the communique said.

England, Wales Bombed by Nazis

LONDON, March 28 (AP)—Strong forces of German bombers struck England and Wales during the night, London itself escaped attack, although one section of the capital had a brief alert.

West England bore the brunt of the assault. There was considerable activity also over South and Southwest England and South Wales.

The Nazi bombers' targets were not immediately announced.

The Berlin radio, in a post-midnight broadcast, said that "at midnight a large number of German heavy bombers were heard flying across the channel."

Communists Dominate Democratic Party, Menace GOP, Says McCormick

OMAHA, March 27 (AP)—Col. Robert R. McCormick declared tonight that "Communists not only dominate the Democratic party, but are actively trying to control the Republican national convention as the New Deal did in 1940."

The editor and publisher of the Chicago Tribune, in a speech prepared for the Ad-Sell Club, made further reference to the 1940 Republican convention which nominated Wendell L. Willkie for president.

McCormick asserted that a "small group of Communists—less than one-tenth of one per cent of the population—dominate our government."

Democrats and Republicans Agree That Roosevelt Policies Are Real Issue in Oklahoma Election Today

OKLAHOMA CITY, March 27 (AP)—Gov. John W. Bricker of Ohio, seeking the Republican nomination for president, said tonight Sen. Alben W. Barkley's participation in Oklahoma's Second district congressional election campaign indicated the national administration was "greatly worried."

"And I think they should be," he added at a rally for state Republican leaders.

The Russians were within two and one-half miles of Chernowitz, a Moscow dispatch said, and the swift smash by Marshal Gregory K. Zhukov's First Ukrainian army effectively split the German defense line east of the Carpathian mountains base on the Bucharest-Chernowitz-Lwow railroad, and put the Russians within twenty-eight miles of Rumania's northern frontier.

MUSKOGEE, Okla., March 27 (AP)—Two United States senators, Alben W. Barkley (D-Ky.) Senate majority leader, and E. H. Moore, Oklahoma Republican, asserted tonight the Democratic National administration is the issue in tomorrow's special congressional election in the Second Oklahoma district.

Willkie Praises Labor Leaders

But Scores Those
Who Are Arrogant

By HERBERT D. WILHOIT

MILWAUKEE, March 27 (AP)—Wendell L. Willkie declared today in the climactic speech of his Wisconsin campaign for the Republican presidential nomination that "one of the tragedies of this war is that we have lost our sense of direction" at home and abroad.

"We are bogging down internationally," he said, "and at home we are failing to establish and maintain the purposes for which we have declared we are fighting. Either failure is reflected in the other."

The candidate addressed a large portion of his remarks to labor matters in this, the state's largest industrial center. In so doing he paid high tribute to "sincere labor leaders" and to the "magnificent contribution by millions of war workers," but he also swung lustily at some labor leaders.

Must Remove "Arrogant"
When he said "labor must take out of its leadership those who have become arrogant," there seemed little doubt he was referring to John L. Lewis of the United Mine Workers.

Willkie also advised labor to "develop more sense of responsibility in relationships with other elements of the social economy" and said there should be "a movement in labor toward democratization of labor itself."

Willkie said that in previous war presidents "had certain declared objectives which they pursued consistently without regard to expediencies of the moment." He cited Abraham Lincoln's determination to preserve the union and free the slaves, and the "magnificent moral spectacle" of Woodrow Wilson fighting for his fourteen points and League of Nations.

"The whole military and political attitude of the government moved consistently in fighting with all the nation's being for the purposes declared," he said.

Early in this war, he continued, the president and other Allied leaders laid down broad general principles, the Atlantic Charter and the United Nations treaty, and "recently Secretary of State Hull restated the general objectives, but at each successive step we have violated the very principles we have announced as principles for which we fight."

Candidate for Mayor Elected After He Is Killed by Train

OAKLAND, la., March 27 (AP)—Rex Roy, candidate for mayor in today's city election who was killed by a train this afternoon while returning from a church committee meeting, won the election by a 30 to 9 vote over his write-in opponent, G. T. Gardner, City Clerk Harold Spencer said tonight.

Spencer said he was puzzled as to how the post would be filled and that a ruling from the state attorney general probably will be sought because "I don't know what the law is on this."

Heavy American Bombers Attack Nazi Airdromes

23 German Planes
Downed in Battles

By W. W. HERCHER

LONDON, March 27 (AP)—Ten task forces of United States Flying Fortresses and Liberators—an armada of from 750 to 1,000 heavy bombers—swept almost unopposed through France today to blow up nine German airdromes and the freight yards at Tours while their fighter escorts alone destroyed thirty-eight Nazi planes.

The German air force generally refused to join combat with the American air fleet totalling perhaps 2,000 planes, and most of the enemy aircraft destroyed by the American Thunderbolts, Lightnings and Mustangs were shot up on the ground.

Six of the bombers and fifteen fighters failed to return from this daylight mission, the twenty-first of the month, executed while Essen, the seat of the Krupp Arms Works, burned after a night attack by the RAF in which 2,240 tons of bombs were dropped.

Nazis Fear New Raid
Later a German radio warning that "single enemy planes were approaching Northwest Germany" pointed to the possibility that British Mosquitos, capable of carrying two-ton blockbusters, were out for another night raiding.

Bad weather over the continent delayed but did not prevent today's twenty-first operation of the month for the British-based United States Liberators and Fortresses. As soon as the weather showed promise of clearing they headed for their targets in the newest phase of the war against the German air force.

The bombers' escort of Lightnings, Thunderbolts and Mustangs joined them high above the channel and the air was filled with the thunder of hundreds of planes speeding to renew the offensive.

Pound Calais Area
Marauder mediums also dashed across the channel under an umbrella of Czech and Belgian-piloted Spitfires to give the military objectives in the Pas-De-Calais area another pasting. None of the Marauders was lost, and they met no Nazi fighters.

At one airdrome hit by the heavies a ground haze was encountered but it was not thick enough to prevent the bombardiers from watching incendiaries and incendiaries make the installations. The Fortresses weaved through coastal flak but the only German fighters seen were on the ground.

It was the second successive day of such attacks. Yesterday about 1,700 American planes including heavy bombers lashed targets in the "coastal sectors" of France and the Netherlands.

Similarly, naval officers who backed the experiments have gone without recognition, although had it not been for the technical progress of radar in this country many naval fights in the Pacific and air combats elsewhere might not have turned out so victoriously.

The line in Mr. Churchill's speech which gave security officers the jitters, came when he said British and American air superiority was brought about not only by advantage in numbers but also:

"By sharing all our secrets with one another we have won the leadership in the marvels of radar both for attack and defense."

Throughout the war radar has furnished an exciting thread of mystery. In 1930-1941 when radar was warning Britain's defenders of approaching German raiders none except the scientists and military knew of its existence. It was at Pearl Harbor, spotted Japanese planes far away, but the American command there never got the word.

For reasons of military security, radar has been under the tightest wraps of secrecy since news of its magic powers leaked out two years ago.

Mr. Churchill broke the cloak of silence. How vital a role of probing electronic fingers are playing on the offensive cannot yet be told but the fact that the instrument is in the light now can be published as a result of the prime minister's speech.

It can be reported too that the American scientists who did most to develop this instrument—who fought for ten years from 1922 for basic acceptance of their idea—are still without formal recognition from the American government, although the navy undertook almost a year ago to initiate procedures for honoring them.

26 to 29 Group Next in Draft

Age Limits To Be
Increased Soon

BALTIMORE, March 27 (AP)—The system of calling up men for military service by age groups and ending occupational deferments except in special cases will be extended next to the 26-29 age range, the Baltimore Evening Sun said today.

Draft boards at present are concentrating on men under 26. The Evening Sun quoted Washington Selective Service officials, as saying that the new pattern of calling up men had been put into effect with orders to end deferments in the 18-21 category several months ago.

The newspaper said each state would be allowed a limited quota of occupational deferments for the various age groups, placing Maryland's quota at 800 for the group under 26, compared with the total of 17,000 such men actually deferred as of Feb. 1.

When the 26-29 age group is "cleared out," selective service "will proceed to the next higher age group," the newspaper said.

The executive committee of the Brotherhood and Union of Transit Employees will meet tomorrow night to set the date for the work stoppage voted by a majority of the membership yesterday, union President Joseph A. Acker announced.

Acker said the meeting, originally scheduled for today, was postponed because of the illness of two board members.

Meanwhile both the national War Labor Board and the department of labor's conciliation service took cognizance of the proposed union action but each said it was awaiting word from the other before entering the case.

A NLRB spokesman said the board could take no action until the case "is certified to us by the Conciliation service." John Steelman, conciliation service head, declared "it's a little difficult for us to do anything until we see what action the WLB plans to take."

Acker said the holiday was voted to force the Baltimore Transit Company to recognize the union in collective bargaining and the addition to the WLB of a representative of unions unaffiliated with the CIO or AFL.

Gives Roosevelt

NEW YORK, March 27 (AP)—Newspaper columnist Ed Sullivan said tonight on his weekly broadcast that James A. Farley, former Democratic national chairman, told him he is convinced that if the presidential election were held tomorrow the Democratic party would lose every state with the exception of the Solid South.

"Mr. Farley believes the winning Republican combination will be Thomas E. Dewey and Earl Warren," Sullivan said.

"He tells me that, basing his estimates on what he believes already to be a five per cent national turnover in votes, if the election were held tomorrow, the Democrats would lose every state except the solid south," the columnist added.

"He does not foresee anything to alter this picture by Nov. 4. As a P. S. Mr. Farley believes the Democrats could win back the White House in 1948," Sullivan who writes for the Daily News, said.

James A. Farley made quite a reputation as a political forecaster when he predicted that Roosevelt would carry all but two states, Vermont and Maine. That is what

He knew there was a war on, said Conroy, who quoted Farrar as saying:

"I've never heard how the Kaiser was making out."

Baltimore Faces Transit Holiday

Workers Threaten

BALTIMORE, March 27 (AP)—Officials of an independent transit workers' union declared today that Baltimoreans would receive no advance notice of the beginning of a threatened twenty-four-hour transit workers' holiday.

The executive committee of the Brotherhood and Union of Transit Employees will meet tomorrow night to set the date for the work stoppage voted by a majority of the membership yesterday, union President Joseph A. Acker announced.

Japs Menacing Allies in India

Grenades, Bayonets
Used by Americans

NEW DELHI, March 27 (AP)—Lt. Gen. Joseph W. Stilwell's American and Chinese, using grenades and bayonets to wipe out Japanese suicide squads were closing in on an encircled force in the Mogau valley of Northern Burma today, as a new threat to Allied life lines developed from the enemy's tank-supported invasion of India.

A fourth Japanese spearhead, striking from the cover of the Sonora tracts, densest jungle of the border area, was moving steadily toward Kohima, sixty miles north of Imphal, a communique from Admiral Lord Louis Mountbatten's Southeast Asia headquarters announced. Across the Naga hills from Kohima lies the Bengali-Assam railway in the Brahmaputra valley.

Three other Japanese spearheads striking at Imphal in the Manipur valley apparently had come to a dead end.

The communique said a Japanese roadblock across the route from Tiddim on the southern approach to Imphal had been eliminated and heavy enemy casualties inflicted. Several Japanese tanks were knocked out in the battle. No major action was reported on the southeastern approach from Tamu, while in the Ukhrul area, thirty-two miles northeast of Imphal, the Japanese were being contained after severe fighting in which they lost heavily.

The executive committee of the Brotherhood and Union of Transit Employees will meet tomorrow night to set the date for the work stoppage voted by a majority of the membership yesterday, union President Joseph A. Acker announced.

Bombing Fails To Drive Nazis Out of Wreckage

Allied Artillery
Continues Action

By LYNN HEINZLERING

ALLIED HEADQUARTERS, NAPLES, March 27 (AP)—The Allied attempt to wrest Cassino from its stubborn German defenders appeared tonight to have been suspended for the time being after the failure of an eleven-day assault—a failure conceded by newspapers of both the United States and Canadian soldiers.

These newspapers, the Stars and Stripes and the Maple Leaf, also gave expression to the Allied determination to profit from the bitter experience and eventually capture the key town on the road to Rome.

It was announced that massed Allied artillery has begun a systematic bombardment to blast Nazi parachute troops from the ruins of the Continental hotel and the hotel Des Roses.

**Air Power Alone
Held Insufficient**

By EDWARD KENNEDY and
GEORGE TUCKER

WITH THE FIFTH ARMY ON THE CASSINO FRONT, March 27 (AP)—The current Allied failure at Cassino is blunt proof that air power alone—no matter what strength—cannot defeat a determined enemy on a battle field.

Bombers may wreck cities, smash industries, slow up communications, and kill and terrorize civilians, perhaps to a point where the country can be brought to defeat. In the case of Germany, this is yet to be proved.

Infantry Still Needed

But bombers cannot beat good infantrymen. When the will to resist is strong, as at Cassino, ground troops in good position can withstand anything planes can drop on them and hold their ground. They may have to run into holes like rats when the bombs come, but after the bombing, they can emerge and fight again.

Post and Helfrich Are Spectators as Council Meets

Mayor-elect and New Councilman Attend Session as Visitors

Two interested spectators attended yesterday morning's session of the mayor and council just to see how things are run. Next Monday after they take office, one of today's spectators will be Cumberland's new mayor and the other, Hunter B. Helfrich, will be a new councilman.

Informal Discussion Held
Following the formal meeting, there was an informal discussion of various city problems. Mayor-elect Post declared he will strive for the best interests of the city and Helfrich expressed the wish that the new council will work harmoniously.

Most of the business yesterday concerned closing out business of the old council. It included:

Ordering a check issued to Fred M. Link for \$4,500 in payment of a police radio system, the check to be delivered when the work is completed, granting water insolvencies of \$319.73, refunding \$92.40 to Mrs. Francis F. Lichenstein for taxes paid in error, granting tax insolvencies of \$252.12 for W. Carl Richards, and \$120.63 for W. Carl T. Davis, and S. Ella Richards because of an error in assessment, granting auto tax insolvencies of \$1,362.54.

Bids for letterheads and envelopes were received as follows and referred to the finance commission: Commercial Press, \$265; Monarch Printing Co., \$313.13; and Cumberland Office Supply Co., \$339.

Warehouse Permit
A permit to erect a one-story 30 by 40-foot concrete block warehouse at the northeast corner of Oldtown road and Utah avenue was granted to John E. Twigg, 201 Gleason street.

Whitman, Requaert and Associ-

ates, Baltimore, engineers for the Municipal Planning and Zoning Commission, notified the city they plan to meet with Army engineers in Washington soon to discuss flood control and allied problems.

A complaint from Monroe Conrat and H. L. Sherwood, 708 Yale street, and E. C. Hovatter, 711 Princeton street, stated neighbors are dumping ashes so as to block their garage and injure their property. It was referred to the Health department.

The application of C. Philip Jolley for reappointment to the Board of Civil Service Commissioners was referred to the new council.

The application of Sgt. L. E. Meister to continue on the Police department despite having passed his sixty-second birthday was referred to Commissioner James Orr. Reid C. Hoenicka, fire chief, reported the building at 12 West Second street is not in fit condition to be used by the Acme Tire Service, which applied for a permit last week. Ralph L. Rizer, city engineer, said he would have to be shown the exact nature of proposed repairs before he could make a final report.

It was also revealed that Cumberland has entered a noise elimination contest of the National Noise Abatement Council. Proof of abatement must be submitted by July 1 for the year ending May 31. Herman L. Myers, chief air raid warden, expressed appreciation for the cooperation of the council in Civilian Defense work.

Water consumption for the week ending yesterday was 78,530,000 gallons. The daily average was 11,219,000 gallons as compared to 10,260,000 for the same period last year. Lake Gordon is seven inches above the crest, and Lake Koon four inches above.

Democrats and

(Continued from Page 1)
string of eight victories in 10 special congressional elections since 1942. The result is rated so important that the Democrats rushed in Senator Barkley of Kentucky for a motor tour and speeches this afternoon at Okmulgee and here to night. Senator Ed H. Moore, Tulsa oil millionaire who quit the Democratic party and got himself elected as a Republican on an anti-New Deal platform in 1942, led the Republican campaign.

The Second district includes eight Eastern Oklahoma agricultural, mining and industrial counties. It has gone Republican only once, in 1920. However, the Republicans gathered 49.5 per cent of the total vote of 42,917 in 1942.

National Issues Stressed
The campaign for the Congress seat vacated by the resignation of Jack Nichols, Democrat, has been fought along national rather than local lines. The candidates themselves—Democrat W. G. Stigler and Republican E. O. Clark—have taken somewhat of a back seat for nationally-known talent.

Republicans have sought to make the New Deal the dominant issue throughout and the Democrats accepted the challenge today.

Stock Market Turns Dull in Day Marked by Only a Few Advances

By BERNARD S. O'HARA

NEW YORK, March 27 (AP)—The stock market turned listless and spotty today with advancing tendencies shown by scattered rails, liquors and specialties while air transports, gold mines and assorted leaders slipped into the losing column.

Earnings and dividends provided props for individual issues.

Prices, mixed at the start, were definitely ragged at the close. The Associated Press sixty-share average was off 1 of a point at 52.5. Transfers of 692,650 shares compared with 841,670 Friday and were the smallest for five hours since March 1.

Airliners were depressed by a drop in 1943 net for American Airlines whose stock fell 1 1/2 to 64. Distillers were buoyed by New York Governor Dewey's signing of the bill

permitting shareowners to sell whiskey dividends.

At peaks for 1944 were Kansas City Southern, Park and Tilford, Allied Mills, Glenn Martin, Distillers Corp. and Twentieth Century-Fox.

Losers of as much as a point or so included American Car and Foundry, Schenley, Standard Gas 7 per cent preferred, N. Y. Central, United States Steel, Chrysler, Pan American Airways, United Air Lines, Homestake and McIntyre Porcupine.

Among Curb advances were Raytheon, Brown-Forman Distillers, and Consolidated Gas of Baltimore. Turnover here was 133,800 shares versus 199,255 in the preceding full session.

The bond market maneuvered in close quarters with the main trend a little cloudy and trading light in all departments.

The Associated Press average of twenty rails edged into a new high since 1937 at 86.5, up 1 of a point but many of the more popular trading mediums in that group were unchanged or a little lower at the close. Sales of \$7,366,900 were the smallest for a full session thus far in 1944 and compared with \$9,851,300 last Friday.

Chicago Grain Market

Chicago, March 27 (AP)—More moisture over the grain belt and reports of further improvement in the outlook for winter wheat brought selling into the grain pits toward the close today. Gains established earlier in the session were cancelled and the market ended with a weak undertone. Rye was down more than a cent for the widest loss.

At the close wheat was unchanged to 1/4 lower, oats were 1/4 lower to 1/2 higher, rye was down 1 to 1 1/2, and barley was unchanged to 1/4 lower.

That's a good car you've got... don't neglect it!

Play safe! You can't afford to let your car deteriorate. It's wise to figure you may have to drive it several more years. This is Spring Tune-up Time. Ask your Plymouth, Dodge, De Soto or Chrysler dealer to check your car's engine, brakes, steering and lights.

Don't wait till the last minute. Under the pressure of wartime work, dealers' shops are often filled early in the day. Why not phone and make an appointment for a time when your dealer can give your car the prompt and thorough attention it deserves?

You may need things like these:

Because of wartime restrictions, many items such as hoods, chrome moldings, bumpers, sheet metal body parts, hardware, etc., are not being made today. Yet replacements from stock may still be available for those damaged beyond repair.

New Brake Lining... Don't neglect brakes. Quick stops are still necessary to protect your car.

New Grille... because the old one was "bashed in" by collision.

New Muffler... In place of the worn one that has become noisy and inefficient.

New Oil Filter... To keep lubricant clean and protect your car's engine.

THE NAVY DEPARTMENT has announced in Washington that Rear Adm. W. R. Munroe, commandant of the Seventh naval district and commander of the Gulf S. frontier, is to be transferred to the post of commandant of the Third naval district. He will make his headquarters in New York. This is a U. S. Navy ship.

It is a pity the American people cannot have from its official spokesman such candid factual reports on the war program from time to time in place of the vague generalities handed them in consequence of an exaggerated sense of necessity for suppressing or delaying information the people should know, even if news so given is not always pleasant, for the American people, as shown by the stamina of those on the war and production fronts, can take it.

U. S. Transport Has Great Record

Liggett Two Years
Without Casualties

SAN FRANCISCO, March 27 (AP)—The navy has just told the story of the "Lucky" Liggett, one of its amphibious force transports which has survived two years of South Pacific war without losing a man, and predicted that "if she ever steams into Tokyo bay the chances are she won't even get scratched."

The Liggett, the old Pan America of the Munson line, commanded by coast guard Capt. Roderick S. Patch, of Alameda, Calif., carried command personnel, troops and supplies in the Guadalcanal and Bougainville invasions and weathered everything Japanese and surface craft threw at her.

In the initial Guadalcanal invasion Japanese bombs fell so close

that the Liggett's crew said "another coat of paint would mean a hit." Following up a Yank invasion on a tiny unidentified island, the Liggett, loaded with ammunition and high octane gasoline, eluded aerial bombardment although one near hit buckled her bow plates.

The Liggett survived the battle of Tassafarunga in which the cruisers Quincy, Astoria and Vincennes were sunk off Savo Island. She carried on proudly as transport

flagship in the Bougainville invasion to write "a bright chapter in coast guard history," the navy said. Her landing boats were strafed at Empress Augusta Bay and she escaped enemy bombing when army and navy fighters drove off Japanese attackers.

The coxswains of the Liggett's launches and landing barges have suffered bullet wounds but lived to continue their ships' exploits. She's just lucky," they say.

Beware Coughs Following Flu

After the flu is over and gone, the cough that follows may develop into chronic bronchitis if neglected. Creomulsion relieves promptly because it goes right to the seat of the trouble to help loosen and expel germ laden phlegm, and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. No matter how many medicines you have tried, tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough or you are to have your money back.

Does your youngster just "pick" at his food? Does he push it away before it's half eaten? Then be on your guard, Mother! Loss of appetite, when accompanied by paleness, weakness and lack of pep, is often a sign that the blood is low in iron! In such cases, a good iron tonic like Pepto-Mangan can be very helpful. Pepto-Mangan replenishes whatever iron the blood may be lacking—helps to give it that rich redness so essential for strength and pep, hearty appetite and rosy cheeks. If he should be a prisoner of war . . . your Red Cross will send him every week, if humanly possible, your carton of real American food . . . Yes, and real American cigarettes and tobacco.

Of course, you have given before, generously and with a willing hand. And you expect to give again. But this year dig deeper . . . give more than you ever have in the past. Give for the boy who isn't in your arms. This year dig deep and be glad. For wherever he is

GIVE TO THE RED CROSS

The RED CROSS is at his side and the Red Cross is YOU!

THERE is no pain like the hurt of longing . . . the constant, yearning pain you feel for someone far away.

It is a proud pain and you—brave girl—you bear it proudly.

You do your work . . . and buy your bonds . . . and give your blood . . . and help a thousand ways.

But when the night grows still and you are all alone . . . there comes again the wish that there was something extra you could do, some special way in which you could reach him, bringing him the small comforts, the extra little, human things that he expects from you.

Tonight . . . when your door is closed . . . when you can almost see him standing there before you . . . think of the Red

Cross. For the Red Cross is still the Greatest Mother in the World, now as always doing the sort of things you'd want to do yourself for him.

Wherever he may be . . . in camp or overseas . . . in the desert's thirsty dust or slogging through the mud . . . the Red Cross will bring him comforts, solace and a helping hand.

The blood you gave so willingly will get to him . . . thanks to your Red Cross. He will sleep between sheets when he goes on leave . . . in a rest

A PEEL BY JOAN BLONDELL

"YOU KNOW WHAT YOU DO to a banana before you eat it? Well, that's what I do to music," Joan Blondell tells and shows Ann Sothern, Ella Raines, Fely Franquelli and Gloria Grafton. Up to that moment, it's been tense in the dugout. Gloria Grafton breaks out in the heat of temper. Joan Blondell, anxious to change the atmosphere, puts on her act in M-G-M's "Cry Havoc," scheduled to open Thursday at the Maryland theater.

Women of Bataan Were All Heroes

They were all heroes! The women of Bataan not only stood up under the terrifying Jap bombardments but they slept in fox holes, suffered from malaria and beri beri, and ate the same meager rations as the men.

There wasn't a woman on the peninsula who wasn't a good soldier. These are the facts as revealed by Marsha Hunt who made a complete study of the women of Bataan before portraying her role in "Cry Havoc." The film, which also stars Margaret Sullivan, Ann Sothern and Joan Blondell heading an all-feminine cast opens Thursday at the Maryland theater. In preparing for the part, Marsha compiled more than 200 eyewitness accounts from

soldiers and nurses who escaped from the Philippines.

Musical Terms Used In Directing Picture

Edmund Goulding, who directed "The Constant Nymph" for Warner Brothers, now at the Garden theater, expresses his directorial wishes to the players in musical terms. He also explains the moods of particular scenes with instrumental analogies.

For instance, if the players are to be forceful, to blare out their lines he tells them they are trumpets. If the scene is to be a quiet, sentimental one, all the actors are violins. Usually female players are violins; male players are bass violins in the Goulding lingo.

Jon Hall Hears Wife's Algiers Broadcast

Jon Hall introduced a note of authenticity on the set during film-

ing of Universal's Paul Malvern technicolor production, "Ali Baba and the Forty Thieves," now at the Liberty theater, by setting up a portable radio to hear his wife, Frances Langford, broadcasting with the Bob Hope show from Algiers.

McKeldin Concedes Right of Theater To Refuse Rental Request

BALTIMORE, March 27. (P)—Mayor Theodore R. McKeldin has conceded the legal right to Lyric theater owners to refuse to rent the structure for a National Maritime Union meeting at which Paul Robeson, negro baritone, was scheduled to appear, but recommended again that the theater be made available.

In a letter to the theater management, which referred only to the NMU application, the mayor said "no one has raised any question as to the legal right x x x this does not, however, dispose of the moral and civic questions involved."

The Lyric management also has refused to rent the theater for a meeting of the National Association for the Advancement of Colored People to be addressed by Mrs. Eleanor Roosevelt and for a concert by Duke Ellington's band. In each case the management said simply that the house was unavailable.

Red Cross Drive For \$105,000 Is Officially Opened

C. H. McFarland Outlines Work of Organization To Campaign Workers

Allegheny county's Red Cross drive for \$105,000 was "kicked-off" in Central Y.M.C.A. last night with an address by C. H. McFarland, executive director of the Baltimore Chapter, American Red Cross, who outlined in detail some of the various services provided for men and women in the armed forces by the Red Cross.

McFarland, a native of Keyser, W. Va., and now a veteran of major disaster assignments with the Red Cross in this country, told of camp service and home service provided by the Red Cross and pointed out that the organization even goes so far as to provide a serviceman with money when the occasion warrants.

In camps both at home and abroad, McFarland said, Red Cross field directors counsel, advise and assist servicemen and women, while home service completes the chain of assistance. He illustrated his point with a story of a soldier whose two children were ill at home the last he had heard of them and who wanted some information about them.

Praises Blood Plasma

Through the Red Cross communications network, the family at home was located, money was loaned to them by the Red Cross and aid was given in securing the government allotment for dependents of servicemen.

Turning then to services for the sick and disabled, McFarland emphasized the importance of blood plasma and referred to the visit here this coming June of a Red Cross mobile unit to secure blood plasma.

He told the story of a soldier near death after eighty-per cent of his body had been burned. Doctors and nurses, the latter recruited through the efforts of the Red Cross, worked with him for four days and were able to save his life by giving him thirty-six blood transfusions as a result of having blood plasma on hand.

Used on every battle front, the speaker continued, are surgical dressings made available because of the efforts of women Red Cross workers. In the past year, he said, women made 924,000,000 surgical dressings.

Provides Comfort Articles

The Red Cross, too, has its own personnel in hospitals, skilled medical social workers and recreational workers who provide human services and give out comfort articles such as tobacco, toilet articles, knitted garments, books and games, provide music and, when possible, "live shows."

In fighting and training areas all over the world, the Red Cross operates a recreation program for able-bodied men, McFarland said, with clubs ranging in size from two rooms to sleeping accommodations for 2,000 persons. The only charge made is for food and lodging, he pointed out, adding that these charges are not sufficient to defray the costs.

Where soldiers cannot reach clubs, club mobiles are sent to the soldiers and provide them with books, movies, food and other recreation. The club mobiles, he added, are manned by four girls, usually attractive.

Rest Homes for Fliers

A new type club facility has been developed, McFarland said, that takes the club right into the camp, providing recreation, and several attractive girls. Rest homes for fliers also are being developed, he related, where men who have been on arduous missions can relax. The first thing the fliers get are civilian clothes, and then they forget all about discipline.

Red Cross work also goes behind barbed wire, McFarland pointed out, relating that each American prisoner of war in Germany is provided with eleven pounds of food a week to supplement his diet provided by the Germans. Each prisoner also is provided with a capture packet containing clothing and comfort articles such as a pipe, cigarettes and razor.

Everything possible is being done to help American prisoners in Japanese camps, McFarland said, adding that the Japs show no indication of helping get Red Cross supplies through to prisoners.

Judge Sloan Presides

Chief Judge D. Lindley Sloan, general chairman of the campaign, presided at the meeting and declared that taking part in the Red Cross campaign here is the "most worthwhile thing we could be engaged in."

Raising \$105,000 will be a big job, Judge Sloan said, but he told the workers, "I have the confidence in you that you'll do it. Now go to it." Chairmen of the various divisions making up the campaign organization were introduced by Judge Sloan. A sound film, on activities of the Red Cross on the battlefronts, concluded the meeting.

The first report luncheon will be held in the vestry rooms of Ber Chayim temple, Union street, at noon Wednesday.

Insurance Men Will Meet on Thursday

Plans will be made to attend the Baltimore-Washington-Cumberland annual sales Congress in Baltimore 14, at a meeting of the board of directors of the Cumberland Life Underwriters here Thursday afternoon at 1 o'clock. The meeting will be held in the office of Harry G. Stein, in the Liberty Trust building.

Death of Soldier In Bathroom Here Is Accidental

Pvt. William Doman Is Overcome in Bathtub by Gas Fumes

A verdict of accidental death was issued yesterday afternoon in the carbon monoxide poisoning of Pvt. William C. Doman, 23, Camp Pyote, Tex., who was found dead in the bathtub at the home of his uncle and aunt, Mr. and Mrs. John M. Lederer, 505 Valley street, shortly before noon yesterday.

Dr. Linne H. Corson, deputy county medical examiner, gave the verdict and said that Doman died about 10:30 a. m. three and one-half hours after he arrived at the Lederer home on furlough.

Wanted To Rest

After arriving at the Lederer home yesterday morning, the soldier told his aunt he would like to take a bath and rest after his trip. The gas heater beside the tub was lighted, police said.

Mrs. Lederer detected the odor of gas, she said, when she went upstairs to get her pocketbook in order to pay an insurance agent.

On investigation, she found the soldier slumped in the tub with his head hanging over the side. Fumes filled the bathroom. The door and window were closed.

Police were summoned at once, and Chief Oscar A. Everman, Sgt. Raymond R. Johnston and Officers John H. Newhouse and J. H. Stutcher hurried to the home with a resuscitator. They worked for more than thirty minutes to revive the young soldier before he was pronounced dead by a physician.

Lieut. B. Gaffney and County Investigator Terrence J. Boyle conducted the investigation.

In Army Two Years

Doman had been in the army for two years and was in the provost marshal's section at the Texas camp.

He was a native of Points, W. Va., and both his parents are dead. His only immediate survivor is a sister, Mrs. Oneida Hall, Martinsburg, W. Va.

The body is at the Stein funeral home. Doman's death was the fourth from similar causes in this section in recent months. Last week a Springfield, W. Va., mother and her son were asphyxiated in the kitchen of a Ridgeley, W. Va., home. Several months ago a Cumberland woman was suffocated in her Louisiana avenue home. Her husband, however, recovered from the effects of the fumes which came from a furnace flue.

The names of the enlistees who will leave tomorrow are: Paul R. Brown, Green Spring, W. Va.; William H. Bowley, Beryl, W. Va.; Robert L. Crawford, 633 Baker street; Dewane C. Crises, Petersburg, W. Allegheny County School Papers Win Medalist Rating

Alcohol Mirror and Orange and Black Honored in New York

Two scholastic publications of Allegheny county—"The Alcohol Mirror" of Allegheny high school and the "Orange and Black" of Central high school, Lonaconing — were given medalist rating at the twentieth annual Columbia Scholastic Press Association convention last week in New York.

Medalist rating is the highest honor accorded the school publications in the annual contest.

Twenty-three hundred editors and staff members of school papers from twenty-three states attended the three-day convention, which was based on the theme "Working for Victory—Planning for Peace." Eight hundred school publications from forty-three states, the District of Columbia, Hawaii, Alaska and Canada received awards. The publications represented elementary and high schools, junior colleges and teacher colleges.

A board of judges consisting of school advisers judged the issues on the basis of a point system, tabulating make-up, news coverage, story content, editorial policy, typography, advertisements, features, sports and creative literary work.

The staffs of both winning papers returned home Sunday from New York. The Lonaconing group of eleven girls and four boys was in charge of Miss Annette Yates, who substituted for Mrs. John F. Field, faculty adviser, who remained at home because of the illness of her father, Miss Mary E. Murray, faculty adviser, was in charge of the Allegheny high school delegation of nine girls and one boy.

Dr. Alvin Twigg's Funeral Will Be Held Wednesday

Flintstone Physician Dies after Illness of Six Months

Funeral services will be held Wednesday afternoon for Dr. Alvin P. Twigg, 84-year-old Flintstone physician and surgeon, who died at his home at 4 a. m. yesterday after an illness of six months.

A native of Twiggstown, Dr. Twigg was a son of the late Oliver and Mary Ann Stallings Twigg, and spent his entire life in the Flintstone section, practicing medicine there for fifty-five years.

Dr. Twigg resided at the Flintstone hotel, little changed since its erection in the days of the stage coach, and among the famous men in American history who stopped there was Henry Clay. Dr. Twigg had an intimate knowledge of the history of the old National Pike.

Active Democrat

Most of his professional training Dr. Twigg received at Bellevue hospital in New York, but he never ceased to be the old-time country doctor using, however, modern methods.

He had been active in the Democratic party and for years ranked high among the active party men in the eastern section of the county.

Dr. Twigg is survived by one son, Dr. Allen G. Truman Twigg, Cumberland; one daughter, Miss Lena B. Twigg, at home; and five grandchildren. His wife, the former Miss Agnes Ash, died several years ago.

Two grandsons are in the armed forces. Allen W. Twigg, electric mechanic, first class, is on submarine duty in the South Pacific area; and Sgt. Kenneth W. Twigg is a United States Marine Corps paratrooper. Mrs. Helen V. Dickey, a granddaughter is employed at an ordnance plant in Channel View, Tex., while her husband, Howard H. Dickey, Jr., is overseas.

At Naval Station

The other grandchildren are Miss Virginia Twigg, telephone operator at the Bainbridge naval training station, and Miss Betty Twigg, at home in Flintstone.

The body is at the Hafer funeral home where services will be held at 2 o'clock Wednesday afternoon with the Rev. Dr. Hixon T. Bowersox, assisted by the Rev. B. F. Hartman, officiating. Interment will be in Hillcrest burial park. Members of the family request that flowers be omitted.

Those wishing to have names added or corrections made are requested to call telephone 807.

Evitt's Creek Assigned Trout

1,200 Speckled Beauties Will Be Stocked; Season Opens April 15

Twelve hundred rainbow and brook trout will be planted in Evitt's creek this weekend, just two weeks in advance of the opening of the trout season, April 15. It was announced yesterday by Joseph A. Minke, regional game warden.

The trout will be brought here from the Bear Creek hatchery, Garrett county, in a tank truck and placed in the stream by local game wardens. The trout will range from nine to eleven inches in length.

Evitt's creek and its tributaries, Bottle Run and Rocky Gap, and Plumstone creek, which is stocked in Pennsylvania as well as Maryland, are the main trout streams in Allegheny county. There are approximately thirty trout streams in Garrett county.

The trout season lasts three months during which time the creel limit is ten a day and the minimum length is seven inches.

Pennsylvania's trout season opens on the same day as Maryland.

LaVale Youth Held Under \$1,000 Bond On Federal Charge

E. L. Sherk Admits Stealing Car, Deputy Says; Two Youths Released

Arrested last Friday, E. L. Sherk, 18, LaVale, was held in the Marion county, W. Va., jail at Fairmont last night under bond of \$1,000 to await action of a federal grand jury at Wheeling, W. Va., on charges of transporting a stolen automobile across a state line, Deputy Sheriff Andy Urban reported.

Two other youths, Alfred Kienhofer, 17, 122 Paca street, and a 15-year-old Alvret avenue boy, were released at the same time, were released from custody after Sherk admitted to agents of the federal bureau of investigation that he stole an automobile in Baltimore on January 7 and later drove it to Bunners Ridge, W. Va., near Fairmont.

Earlier last week, Sherk and one of the youths drove to the home of Carpenter at Bunners Ridge, and told him they had purchased the automobile of his son, Harper Cecil Carpenter, Oldtown, a short time before he was fatally slugged in an alley in Cumberland, Urban said.

Sherk, according to Urban, told Carpenter he was "the sheriff" and asked to see the title to Harper Carpenter's automobile.

Later Carpenter received a letter postmarked in Cumberland and signed Sherk. Urban said. The letter stated that Sherk would meet Carpenter at his mail box on Bunners Ridge at 5 a. m. Saturday drive him to the office of the commissioner of motor vehicles in Baltimore and then drive him back to Cumberland.

Carpenter became suspicious, reported the matter to county authorities, and they arrested the trio of youths when they drove up to the mail box Friday morning.

Investigation disclosed the car was stolen. Sherk related, and bore license plates taken from an automobile in a Baltimore parking lot.

After investigation by federal authorities, Sherk admitted stealing the car in Baltimore and having the keys made for it at the garage where he worked in Baltimore. He cleared the other youths of stealing the car, Urban said.

148 Servicemen Of County Seek Absentee Ballots

State Requests Total 3,832; 50 Per Cent Are from Men Overseas

ANNAPOLIS, Md., March 27.—(AP)—Absentee ballot requests from Maryland's servicemen continued to pour into the secretary of state's office today and by mid-afternoon totalled 3,832.

Totals for the twenty-three counties and Baltimore City showed distributions of requests about equal, with 1,926 requests received from county soldiers and sailors and 1,906 from Baltimoreans in service.

Slightly more than fifty per cent of the applications were from men serving overseas, indicating a somewhat higher primary vote on May 1 among Marylanders in the fighting theaters than had been predicted by state officials during the special session of the legislature in early March.

The complete list of counties and the number of ballot requests received by closing time at the secretary of state's office today was:

Allegheny 148; Anne Arundel 171; Baltimore 313; Calvert 17; Caroline 29; Carroll 33; Cecil 54; Charles 12; Dorchester 36; Frederick 78; Garrett 22; Harford 56; Howard 41; Kent 31; Montgomery 366; Prince George's 256; Queen Anne's 19; St. Mary's 16; Somerset 28; Talbot 29; Washington 80; Wicomico 67; and Worcester 24.

Thomas E. Jones, secretary of state, said that absentee voters must be registered to participate in the primaries but under Maryland's new service vote law, servicemen do not have to be registered to cast their ballot in the general elections in November.

WILLIAM J. CRAMER, JR., MAKES SOLO FLIGHT

William J. Cramer, Jr., 837 Camden avenue, member of Western Maryland Squadron 331, Civil Air Patrol, made his first solo flight Sunday afternoon at the Cumberland Municipal Airport.

Cramer, who joined the patrol several months ago, completed the eight hours of dual instruction required before making yesterday's flight. C. R. Powers was his instructor.

Sunday's good flying weather, the first in several Sundays, enabled CAP officers to take the sixteen youths who were recently sworn in as army aviation cadets on indoctrination flights.

The youths received instructions in an army Taylorcraft plane which was moved from the Mexico Farms airport to the Cumberland Municipal airport Saturday by Capt. Arthur Lyon, squadron commander.

The indoctrination flights were given by Capt. Lyon and Lieuts. Wade Berg, G. L. Trimmer, Bernard Miltenberger, Wyatt Brennan and Virgil Parker.

WASHINGTON, Mar. 27.—Lieut. Col. Joseph D. Caldara, pilot of the first Flying Fortress to land at Guadalcanal, has been promoted to the rank of colonel, it was announced by the War Department today.

The 34-year-old flying officer is well-known in the Cumberland area. His mother makes her home in Mt. Savage and his wife, Mrs. Christine F. Caldara, served as a teacher in Allegheny high school at Mt. Savage while Col. Caldara was flying in the South Pacific.

Is Veteran Flier

A veteran of more than 170 hours of combat flying, Col. Caldara has participated in many heavy bombardment missions including operations against the Japanese in Buna and on Guadalcanal. For these exploits he has been awarded an Oak Leaf Cluster to the Air Medal he has previously won for a hazardous and important flight with a Fortress from the Fiji Islands to New Zealand.

Born in Fairmont, West Virginia, Col. Caldara was graduated from the University of Maryland with the class of 1931. That same year he started his flying education as an air cadet. He won his wings and was commissioned a second lieutenant at Kelly field, Texas, in October, 1931. After graduation he served a tour of active duty with a fighter group at Barksdale field, La.

When the army took over the flying of domestic mail routes when air line contracts were cancelled in 1934, Col. Caldara was one of the army fliers who took over the carriage of mail.

Returning to civilian life in 1934 he became associated with the B. F. Goodrich Company as a sales supervisor and he continued this work in various parts of Virginia until February, 1941, when he was called to active duty as a captain.

Assigned to Headquarters

For nineteen months he was assigned to Bolling field in the District of Columbia. Late in 1941 he was promoted to the rank of major and the following spring he was made a lieutenant colonel.

In August, 1942, Col. Caldara left the Pacific theater as flying aide to Lieut. General Millard F. Harmon, now commanding general of United States Forces in the South Pacific. When not leading combat missions, much of his time was occupied by executive work as an assistant staff officer.

Col. Caldara returned to the United States last October and has been assigned to the headquarters of the army air forces. He and Mrs. Caldara are making their home at 1577 Mt. Eagle Place, Alexandria, Virginia.
